

Name:- Ranadheer Durgi

Email:- dranadheer4@gmail.com

Mobile:- +91-9963883545

Summary of Profile

- » Having around 1+ years of Experience in Information Technology on Software Testing including in Manual Testing and Automation Testing with Selenium(Java)
- » Experience of software testing's like **Functional testing, Smoke Testing and Regression-Testing.**
- » Expertise in working with **Selenium Webdriver** using **Hybrid Framework**
- » Good Experience in **Selenium** with **Java** and **Python**
- » Experience in **Data Driven Testing** using APACHE POI Libraries.
- » Good Experience in Creating, modifying and enhancing both Manual Test cases and test scripts created in Selenium Web driver.
- » Good experience on Software **Bug life cycle** and Having good interaction of Test Management with JIRA.
- » Familiar with creating of **X-path** and **Dynamic X-path.**
- » Knowledge on Creating and Scheduling Jobs in Continuous Integration tool like **Jenkins.**
- » Good knowledge in all phases **STLC** and **SDLC.**
- » Having knowledge on software development process like **Agile sprint** methodology, Sprint Planning and Retrospective Meetings.
- » Having with basic knowledge on SQL queries of database.
- » Good Knowledge on **Java (Oops)** concepts
- » Having basic knowledge on API testing and Rest-Assured.

Experience

Organization	Designation	Year
NstarX India Pvt Ltd	Associate Software Test Engineer	November 2022 – present

Skills

Languages	Java
Operating System	Windows family
Software Testing	Manual and Automation
Automation Tools	Selenium Web-Driver, testNG, Cucumber, Maven
Data Base	SQL
Defect Tracking Tools	JIRA

Educational Qualifications:

- Bachelor of Technology - Aurora's Scientific Technological and Research Academy, Hyderabad, Telangana, India.
- VREC - Polytechnic College, Telangana, India.
- LFHS - Telangana, India.

Representative Projects:

Project#2:

Project Name	:	OLobby
Role	:	Software Test Engineer
Tools	:	Selenium WebDriver, testNG, Jenkins and Gitlab
Browsers	:	Chrome and MS-Edge

Description:

OLobby is a cloud based task management application that allows any user to manage their amount of work on a desktop, IPad, mobile or other similar devices. OLobby makes things simple into one platform and focuses on productivity. OLobby includes Global Dashboard, Document and File Management, Workflow system, Task Management, Quick Notes, Chat and Video Conference Call System. OLobby is an All in one cloud based solution system so that we can manage our tasks quickly and smartly.

OLobby has a vision to transform the way accounting firms work while rendering their services in the areas of financial close, Internal audits and External audits to their clients.

Roles

- Developing Selenium Test scripts using Selenium Web Driver
- Writing the test class methods using testNG.

- Automated test suites using Selenium testNG Framework.
- Running the scripts on Different Browsers through xml Using testNG.
- Analyzing and fixing the failed Test scripts.
- Execute the test cases and develop the test scripts by using selenium web driver and java in Eclipse.
- Performed Functional, Smoke and Sanity Testing utilizing automated test scripts.
- Defects Encountered during Regression Test and Follow-up with Developers until all Issues were resolved.
- Running all the test scripts by using maven build level commands and pom.xml
- Scheduling Jobs/Builds with respective time using continuous integration tool as Jenkins
- Git-lab version control tool pushing and pulling of the scripts in remote repository

Project #1

Project Name	:	CredentialMyDoc(CMD)
Role	:	Software Test Engineer
Team Size	:	12
Browsers	:	Chrome and Microsoft Edge

Description

CredentialMyDoc will help you in many ways as your one-stop Medical Staff and Provider Enrollment pre-populated form creation and process management tool. By linking its database with a PDFdocument function,CredentialMyDoc will store provider information and populate applications, letter and reports on an as-needed basis. Once accurate information is entered into the Provider Profile, documents (that are ready for provider signature) may be produced quickly and easily, allowing prompt submission to health plans or credentialing committees. CredentialMyDoc also helps manage the process of credentialing providers for the Medical Staff privileging and enrollment by providing atracking and task management module to house task assignments and notes.

Roles

- Involved in preparing and Executing Test Cases as per System Requirements.
- Developed Test Cases using JIRA.
- Involved in Functional, Sanity, Smoke & Regression Testing.
- Communicating with team's members in order to resolve the issues.
- Attending daily scrum meetings, Sprint Retrospective meetings and Sprint Planning.
- Involved in creation of the test cases in Test case template and creating bug report sheet with updating priority and severity conditions.
